

Technology Drive Car Park Consultation and Consideration for Camera Surveillance

Broxtowe Borough Council believe there is a pressing need with legitimate aims which, is proportionate to the level of risk to justify implementing surveillance coverage at this location and are therefore proposing to install a number of surveillance camera/s at this location. The surveillance cameras will assist in the prevention, investigation and detection of crime, the apprehension and prosecution of offenders, the maintenance of public order, reduction of vandalism and help to reduce the fear of crime in vulnerable public locations. The surveillance system may also be used to support the statutory obligations and duties of the council and serve to resolve complaints against others.

The use of Surveillance cameras are compliant with the Councils code of practice and adhere to the principles of the Data Protection Act, GDPR and will be operated in accordance with all the requirements and articles of the Human Rights Act.

Maximum deterrent value will be achieved by having cameras clearly visible and the areas of coverage will be clearly indicated by the use of mounted signs. Signs will be deployed within the parking place to give full consideration into each area covered by the surveillance scheme and also at strategic locations within the designated area.

To ensure privacy, a privacy impact assessment will be completed prior to the installation of surveillance cameras. Images from the system are viewed by trained and authorised staff, the camera's will be on a pre-set patrol and focused to minimise public intrusion. Images from the cameras are appropriately recorded in accordance with existing operational procedures and government guidance. There is no sound recording undertaken from any part of the system.

Directed surveillance will only be undertaken with the consent of the proper authorities and in accordance with the Law.

Surveillance equipment will be situated so that it monitors only the area that is intended to be monitored. If the surveillance area borders private property every effort will be made to ensure any private areas cannot be viewed by the camera.

If you wish to comment on or object to the proposals outlined in the attached documents we would be pleased to hear from you in writing by 2pm on Friday 27th July 2018. Otherwise, we shall assume that you have no comments or objections at this stage.

Should you require further information or clarification on any points arising from the proposals please contact the Camera Surveillance, Security and Parking Manager, Housing, Leisure & Property Services (telephone 0115 917 3620).
