

Broxtowe
Borough
COUNCIL

A large, irregular white outline of the Broxtowe map is centered on the page. Inside the outline is a scenic photograph of a church with a tall spire, surrounded by greenery and a body of water. In the foreground of the water, there are several ducks and ducklings. The text of the title is overlaid on the right side of the map outline.

Part 2 Local Plan Sustainability Appraisal APPENDICES Part B

Submitted Version July 2018

Part 2 Local Plan Sustainability Appraisal APPENDICES

Part B

Secondary, cumulative and synergistic effects

The following assessment considers the overall secondary, cumulative and synergistic outcomes from the appraisals of policies and Site Allocations.

SA Objective 1: Housing

The objective seeks to ensure that the housing stock meets the housing needs of Broxtowe Borough. The scale of housing proposed on site allocations provides a very strong outcome for the objective, with some very major positive impacts highlighted. The overall effect of the policies would be to support and promote this objective. In particular, the appropriate provision of affordable housing. The Housing objective, in combination with policies seeking to provide employment land, retail and the supporting transport infrastructure, would be likely to give rise to a cumulatively negative impact on Natural Resources & Flooding, Waste and Energy, and Climate Change objectives, and to a smaller extent Transport. However, it is considered that scope for sufficient mitigation of potential harm is possible, and can be made. The new housing developed in support of the Housing objective is considered likely to contribute towards a permanent positive impact on the Health objective, as a result of the provision of good quality homes, given the acknowledged links between housing and Health. Housing development is also likely to provide a temporary positive impact on the employment objective, as a consequence of the boost provided to the construction and associated industries.

SA Objective 2: Health

The objective aims to improve health and reduce health inequalities. The policies of the plan support the objective, creating the conditions for a healthier population by provision of a balanced mix of good housing and recreational, leisure and job opportunities, meeting the needs of the population, as well as by addressing environmental factors underpinning health and wellbeing.

SA Objective 3: Heritage

The objective promotes the provision of better opportunities for people to value and enjoy the heritage of Broxtowe. Overall the policies and site allocations of the plan are supportive of this objective and will serve to protect the historic environment of Broxtowe, whilst promoting improvements in access to heritage.

SA Objective 4: Crime

The objective seeks to improve community safety, reduce crime and the fear of crime.

SA Objective 5: Social

The objective relates to the promotion and support of the development and growth of social capital across Broxtowe. Appraisals have suggested that the policies of the plan are highly compatible with this objective, and a positive cumulative outcome is likely.

SA Objective 6: Environment, Biodiversity and Green Infrastructure

The objective aims to increase biodiversity levels and protect and enhance Green Infrastructure across Broxtowe. Appraisal of the plan policies suggest an overall positive impact for this objective, although growth through residential, economic development, and the supporting transport infrastructure were identified as having potential for some cumulative negative impact. This issue was identified and actioned by the Core Strategy including the strategy of urban concentration with regeneration, which directs development to the already main built up area and consequently away from the main natural environment. For any sites with negative effects, mitigation is proposed with the Development Principles setting out requirements for the preservation of the most important features to be preserved and open space to be provided. In the short term, construction sites will have a negative impact on the environment. Mitigation for negative impacts from development can be provided by the policies of the Local Plan and through careful assessment of location and design considerations at the Development Management stage. The interaction of policies considering design, open space, and the retention and enhancement of biodiversity will have a synergistic effect that will reduce any anticipated negative impact, providing enhancements wherever possible.

SA Objective 7: Landscape

The objective is concerned with the protection and enhancement of the landscape character of Broxtowe. Overall the policies of the plan are negative of this objective because any development not on brownfield land would have a detrimental impact due to a previously open landscape. Where negative impacts have been found for the Landscape Objective, the mitigation helps to ensure that the wider landscape is taken into account in the overall design of schemes for example at Toton Lane. The interaction of policies considering place making, design and open space will have a synergistic effect that will reduce negative impact, providing enhancements wherever possible.

SA Objective 8: Natural Resources and Flood Risk

The objective seeks to prudently manage the natural resources of the area including water, air quality, soils and minerals, whilst also minimising the risk of flooding. The Plan seeks to locate new development in highly sustainable urban locations, reducing the need to travel. This approach makes a cumulatively positive contribution towards this objective. However, appraisals of the significant level of residential, employment, regeneration and other development, and the associated transport infrastructure proposed in the plan, identified negative impacts against this objective, though the delivery of green infrastructure has the potential to improve green resources and development site drainage. Whilst negative impact on individual sites was predominantly estimated to be negligible, the cumulative negative impact could be more pronounced, and would need to be carefully mitigated. Mitigation could be provided through the flood risk assessment process as well as the promotion of sustainable design and prudent use of natural resources during the Development Management process as individual proposals emerge. The interaction of policies considering sustainable design, flood risk, and water will have a synergistic effect that will reduce negative impact, providing enhancements wherever possible.

SA Objective 9: Waste

The objective seeks to minimise waste and increase the re-use and recycling of waste materials. The impacts are considered to be negligible.

SA Objective 10: Energy and Climate Change

The objective seeks to minimise energy usage and to develop renewable energy resources in Broxtowe, reducing dependency on non-renewable sources.

SA Objective 11: Transport

The objective seeks to make efficient use of the existing transport infrastructure, help reduce the need to travel by car, improve accessibility to jobs and services for all, and to ensure that all journeys are undertaken by the most sustainable mode available. Overall, the policies of the plan are highly compatible with this objective and are likely to give rise to a cumulative positive impact.

Policies which take advantage of existing transport hubs, would make very important positive cumulative impacts on the objective. Elsewhere, appraisals of sites have suggested small clusters where cumulative negative impact may arise.

SA Objective 12: Employment

The objective focuses on the creation of high quality employment opportunities. The policies of the plan are compatible with this objective and are likely to give rise to a cumulatively positive impact. A particularly strong positive cumulative impact will be felt where regeneration sites are clustered, for example, the Boots Enterprise Zone.

SA Objective 13: Innovation

The objective seeks to develop a strong culture of enterprise and innovation. The appraisals have suggested that a positive cumulative outcome is likely for this objective.

SA Objective 14: Economic Structure

The objective seeks to provide the physical conditions for a modern economic structure including infrastructure to support the use of new technologies. The appraisals have suggested that a positive cumulative outcome is likely for this objective.

Overall Outcomes

Positive outcomes are anticipated for most of the SA objectives.

Particularly strong positive impacts are predicted in respect of the Housing, Health, Social, Transport and Employment objectives.

Likely Significant Effects on the Environment

Annex I of the SEA Directive requires the report to provide information on the biodiversity, population, human health, fauna, flora, soil, water, air, climatic factors, material assets, cultural heritage including architectural and archaeological heritage, landscape and the interrelationship between the

There is potentially a long term, permanent effect on soil in combination with biodiversity, water, cultural heritage, climatic factors and material assets.

Development on some agricultural land and the loss of soil is inevitable given that there is a national and local need for growth. The spatial effect on landscape will be negative in the long term and permanent but the plan leads development to the most sustainable solutions given the national and local need for development. Most sites are within the main built up area of Nottingham, making best use of brownfield land. The plan has a significant overall positive effect on the area's cultural heritage on a long term permanent basis.

There is also a separate policy to support community facilities.

The cumulative effects of several developments will have significant impact on the population. The housing proposed on site allocations and supported by policy is intended to contribute towards the adopted figure for housing provision for Broxtowe in the adopted Core Strategy which was sustainable, which is in anticipation of the projected population increase in the Borough.

The local plan deals with human health spatially throughout the plan, and will have a significant positive impact.

Policies encouraging home building, together with allocations for new housing development, will result in a significant positive cumulative impact on health. The promotion of walking and cycling, which plays an integral part in the approach to transport in the Plan, and provision for green infrastructure, will support healthy lifestyles. Long term, permanent human health benefits are dependent on delivery of the plan, especially community facilities.

Appendix 13: Review of Plans, Policies and Programmes (updated 2012)

European

Description	Targets	Implication for plan	Implication for SA
Air Quality Directive 2008/50/EC			
The Council of European Communities			
http://ec.europa.eu/environment/air/quality/legislation/existing_leg.htm			
This Directive seeks to establish a common approach to the assessment of ambient air quality and the implementation of the necessary measures to reduce emissions at source in order to maintain or improve ambient air quality. Objectives: Protect human health and the environment as a whole. Combat emissions of pollutants at source and identify and implement the most effective emission reduction measures at all levels. Air quality status should be maintained where it is already good, or improved. Minimise the risk posed by air pollution to vegetation and natural ecosystems away from urban areas. Although there is no identifiable threshold below which PM _{2,5} would not pose a risk, there should be a general reduction of concentrations of	No set targets	Policies will need to address air quality and encourage developments that minimise emissions.	The SA Framework includes objectives for air quality.

Description	Targets	Implication for plan	Implication for SA
EC The Habitats Directive			
The Council of European Communities			
http://ec.europa.eu/environment/nature/legislation/habitatsdirective/index_en.htm			
The Habitats Directive addresses the preservation, protection and improvement of the quality of the environment, including the conservation of natural habitats and of wild fauna and flora. Objectives: Implementation of measures required to maintain or restore the natural habitats and the populations of species of wild fauna and flora. Implementation of measures to conserve threatened species, and to ensure and promote the maintenance of biodiversity Designation of special areas of conservation to create a coherent European ecological network under the title Natura 2000.	Requirements to take legislative and administrative measures to maintain and restore natural habitats and wild species. An assessment of the impact and implications of any plan or project that is likely to have a significant impact on a designated site is required.	Policies should protect and enhance habitats within the district.	The SA Framework takes into account the conservation status of areas within the district and seeks to identify measures to further maintain and restore natural habitats.
The Birds Directive			
The Council of European Communities			
http://ec.europa.eu/environment/nature/legislation/birdsdirective/index_en.htm			

Description	Targets	Implication for plan	Implication for SA
<p>The Birds Directive addresses the conservation of indigenous wild birds in member states throughout the European Union. It applies to birds, their eggs, nests and habitats. Objectives: Maintenance of bird populations Preservation, maintenance and re-establishment of varieties of habitats Implementation of such special conservation measures as are necessary. Protection against harm including deliberate killing or capture, destruction of nests or eggs, and disturbance during breeding periods.</p> <p>Codified update ‘Directive 2009 147/EC’ [30th November 2009]. <p>Waste Framework Directive (2008/98/EC on waste)</p> <p>The Council of European Communities</p>			

Description	Targets	Implication for plan	Implication for SA
http://ec.europa.eu/environment/waste/framework/revision.htm			
This Directive sets out to ensure that waste management provisions secure the protection of human health and the environment against harmful effects caused by the collection, transport, treatment, storage and tipping of waste. Objectives: Effective and consistent rules on waste disposal and recovery that prohibit the abandonment, dumping or uncontrolled disposal of waste The recovery of waste and the use of recovered materials as raw materials in order to conserve natural resources. Implementation of measures to restrict the production of waste particularly by promoting clean technologies and products which can be recycled and re-used, taking into consideration existing or potential market opportunities for recovered waste. Reduced movements of waste. Member States to become self-sufficient in waste disposal.	to be achieved by 2020: 50% preparing for re-use and recycling of certain waste materials from households and other origins similar to households, and 70% preparing for re-use, recycling and other recovery of construction and demolition waste.	Policies will need to address waste and encourage developments that minimise and recycle waste within the district.	The SA Framework includes objectives to ensure sustainable use of materials through efficient use of raw materials and increased use of recycled materials. It also includes objectives with regard to composting waste and waste reduction within the district.
European Landscape Convention 2000			
The Council of Europe			
http://www.coe.int/en/web/landscape/home			

Description	Targets	Implication for plan	Implication for SA
<p>It provides a basis for recognising the importance of landscapes and sharing experience across Europe</p> <p>The convention recognises the need for landscape management and protection across the member states to be situated in law. It also recognises the importance of stakeholder involvement in landscape management, protection and development.</p> <p>The European Landscape Convention (ELC) requires "landscape to be integrated into regional and town planning policies..."</p>		<p>Encourages adoption of policies and measures at local level for protecting, managing and planning landscapes. Landscape is defined as "an area, as perceived by people, whose character is the result of the action and interaction of natural and/or human factors". The Convention's definition of landscape and its emphasis on action/interaction, human factors and cultural perspectives is well reflected in the UK's national programme of Historic Landscape Characterisation.</p> <p>The European Landscape Convention (ELC) requires "landscape to be integrated</p>	<p>The SA Framework includes objectives to ensure sustainable use of landscape.</p>

Description	Targets	Implication for plan	Implication for SA
		<p>into ... town planning policies ...as well as any other policies with possible direct or indirect impacts on landscape”.</p> <p>Natural England's guidelines, “European Landscape Convention: guidelines for managing landscapes”, aim to make the ELC more meaningful and relevant to a wide range of organisations and describe the possible actions that individual organisations can take.</p>	
Water Framework Directive 2000/60/EC			
The Council of European Communities			
http://ec.europa.eu/environment/water/water-framework/index_en.html			

Description	Targets	Implication for plan	Implication for SA
<p>This Directive deals with the management of large bodies of water: inland surface waters, transitional waters, coastal waters and ground water. Objectives: Enhance the status and prevent further deterioration of aquatic ecosystems and associated wetlands - there is a requirement for nearly all inland and coastal waters to achieve 'good status' by 2015. Promote the sustainable use of water. Reduce pollution of water, especially by 'priority' and 'priority hazardous' substances. Lessen the effects of floods and droughts. Rationalise and update existing water legislation and introduce a co-ordinated approach to water management based on the concept of river basin planning.</p> <p>Amendments have been made since 2000. A consolidated version of the Directive including the four main amendments is available:</p> <p>http://eur-lex.europa.eu/LexUriServ/LexUriServ.do?uri=CONSLEG</p>	<p>Inland water bodies to achieve 'good ecological status' by 2015.</p>	<p>Policies will need to ensure that development does not have a detrimental impact on large bodies of water.</p>	<p>The SA Framework includes objectives relating to water.</p>

discharges into watercourses from sewers and direct pollution from nutrients from agriculture. Manage surface water in order to protect water courses from pollution and to reduce flooding. Increase the use of Sustainable Urban Drainage Systems. Manage the effects of climate change - both from drought and from flooding.			
Our Towns and Cities: The Future - Delivering an Urban Renaissance (The Urban White Paper, 2000) Department for Communities and Local Government http://www.communities.gov.uk/documents/citiesandregions/pdf/154869.pdf			
The paper seeks to address the decline in towns and cities bringing improvements to the physical environment and to the prosperity and quality of life for the people who live there. Objectives: To enable local people to shape the future of their community, supported by strong and truly representative local leaders. For people to live in attractive, well kept towns and cities which use space and buildings well. Good design and planning which makes it practical to live in a more environmentally sustainable way, with less noise, pollution and traffic congestion. Towns and cities able to	No set targets	The Development Framework should ensure that the improvements to the physical environment of the urban areas of Rushcliffe have been considered throughout the process.	The SA Framework takes account of design and access to services.

Description	Targets	Implication for plan	Implication for SA
create and share prosperity, investing to help all their citizens reach their full potential. Good quality services - health, education, housing, transport, finance, shopping, leisure and protection from crime - that meet the needs of people and businesses wherever they are.			
Planning Act 2008			
Department for Communities and Local Government			
http://www.opsi.gov.uk/acts/acts2008/ukpga_20080029_en_1			
The Act puts plans in place for the creation of an independent Infrastructure Planning Commission. The Commission will be responsible for making decisions on major infrastructure of national significance. The Commissions decisions will be guided by National Policy Statements. The Act also brings in the Community Infrastructure Levy (CIL). The CIL will allow local authorities to charge developers for infrastructure. Changes to existing local planning policy mean that Regional Spatial Strategies and Development Plan Documents will need to contribute to climate change policy.	No set targets	The Development Framework should ensure that the implications arising from the Planning Act have been considered throughout the process. Including infrastructure provision and climate change priorities.	The SA Framework takes account of this Act.

Description	Targets	Implication for plan	Implication for SA
National Planning Policy Framework (March 2012) Planning policy for traveller sites (Updated August 2015)			
Department for Communities and Local Government			
https://www.gov.uk/government/publications/national-planning-policy-framework--2			
https://www.gov.uk/government/publications/planning-policy-for-traveller-sites			
<p>The National Planning Policy Framework sets out the Government's planning policies for England and how these are expected to be applied. It sets out the Government's requirements for the planning system only to the extent that it is relevant, proportionate and necessary to do so. It provides a framework within which local people and their accountable councils can produce their own distinctive local and neighbourhood plans, which reflect the needs and priorities of their communities. Planning law requires that applications for planning permission must be determined in accordance with the development plan, unless material considerations indicate otherwise. The National Planning Policy Framework must be taken into account</p>	<p>The document includes the following key areas:</p> <p>Achieving sustainable development :-</p> <ol style="list-style-type: none"> 1. Planning for a Sustainable Future: White Paper 2007 Department for Communities and Local Government https://www.gov.uk/government/publications/planning-for-a-sustainable-future			
This white paper seeks to make changes to the planning system to ensure sustainable development that is	No set targets	The Development Framework should take	The SA Framework takes account of this White

Description	Targets	Implication for plan	Implication for SA
<p>responsive to economic change and serves the needs of local communities and builds their quality of life.</p> <p>Objectives: Ensure that there is a clear policy framework for nationally significant infrastructure which integrates environmental, economic and social objectives to deliver sustainable development. Place planning at the heart of local government by aligning the Sustainable Community Strategy and the local development framework core strategy. Streamline the planning process whilst protecting the interests of neighbours, the wider community and the environment, and increase consultation throughout the process. Help address climate change by encouraging microgeneration and by delivering substantial savings in carbon emissions from new commercial buildings. Plan for a sustainable supply of land for development, reusing previously developed land where possible while recognising the importance of open and green spaces in urban places. Plan for sustainable economic development by promoting a strong, stable and productive economy. Improve the effectiveness of the town centre planning policy.</p>		account of this White Paper.	Paper.
Sustainable Communities: People, Places and Prosperity (Final, ODPM, 2005)			

Description	Targets	Implication for plan	Implication for SA
Department for Communities and Local Government			
https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/272227/6722.pdf			
The Sustainable Communities: People, Places and Prosperity action plan sets out to revitalise neighbourhoods, give local people a say in how their communities are run, strengthen local leadership, and increase regional prosperity to create places in which people want to live and work. Objectives: Sustainable communities should be: Active, inclusive and safe - fair, tolerant and cohesive with a strong local culture and other shared community activities. Well run - with effective and inclusive participation, representation and leadership. Environmentally sensitive - providing places for people to live that are considerate of the environment. Well designed and built - featuring a quality built and natural environment. Well connected - with good transport services and communication linking people to jobs, schools, health and other services. Thriving - with a flourishing and diverse local economy. Well served - with public, private, community and voluntary services that are appropriate to people's needs	No set targets	Policies should be included to ensure that sustainable communities initiatives objectives are met.	The SA Framework includes objectives to ensure sustainable communities.

and accessible to all. Fair for everyone - including those in other communities, now and in the future.			
UK Climate Change Programme 2006			
Department for Environment, Food and Rural Affairs			
https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/272269/6764.pdf			
The UK Climate Change Programme is the Government's programme to reduce man-made emissions (greenhouses gases) considered to be contributing to climate change. Objectives: Encourage energy production from renewable sources, and invest in the development of technologies that reduce carbon production in commercial processes. Reduce the amount of carbon produced by vehicular transport, businesses and agriculture. Reduce the amount carbon produced and water used by domestic properties.	Deliver the UK's Kyoto Protocol target of reducing emissions of the basket of six greenhouse gases by 12.5 per cent below base year levels over the commitment period 2008-2012, and move the UK close to the domestic goal to reduce carbon dioxide emissions by 20 per cent below 1990 levels by 2010. It also aims to put the UK on a path to cutting carbon dioxide emissions by some	Policies will need to address climate change and encourage developments that minimise emissions.	The SA Framework includes objectives for reducing emissions including that of CO ₂ and takes into account guidance on climate change.

Description	Targets	Implication for plan	Implication for SA
	60 per cent by about 2050, with real progress by 2020.		
UK Sustainable Development Strategy - Securing the Future (Final, HM Government, 2005) Department for Environment, Food and Rural Affairs https://www.gov.uk/government/publications/securing-the-future-delivering-uk-sustainable-development-strategy			
<p>The goal of sustainable development is to enable all people throughout the world to satisfy their basic needs and enjoy a better quality of life, without compromising the quality of life of future generations. Objectives: Sustainable Consumption and Production to achieve more with less. This means addressing: - how goods and services are produced to reduce the inefficient use of resources; - the impacts of products and materials across their whole lifecycle; - building on people's awareness of social and environmental concerns. Reduce the impacts on climate change by reducing the amounts of greenhouse gasses released during energy production and other human activity. Ensure a decent environment for everyone by implementing environmental protection, enhancement and recovery.</p>	<p>Five overarching principles which form the basis for policy in the UK:</p> <ul style="list-style-type: none"> • Living within environmental limits • Ensuring a strong, healthy and just society • Achieving a sustainable economy • Promoting good 	<p>Policies should support the principles and objectives and achieve a sustainable economy and a strong healthy and just society within environmental limits.</p>	<p>The strategy provides guidance and informs the whole SA process. Derbyshire and Derby Waste Local Plan (March 2005)			
Derbyshire County Council and Derby City Council			
http://www.derbyshire.gov.uk/images/D%26D%20WLP_tcm44-189473.pdf			

Description	Targets	Implication for plan	Implication for SA
<p>The plan sets out the broad land use framework for future waste management in Derbyshire and covers all forms of waste including household, commercial, industrial and construction wastes. The plan identifies potential future sites for new facilities such as waste transfer, recycling, composting, energy recovery and landfill. It also sets out the detailed environmental and other criteria against which all applications for waste management will be judged. Objectives: Reduce the dependency on disposal as a waste management option. Increase the amount of waste that is recycled, incinerated and composted. Protect the environment by directing harmful development away from sensitive areas, and minimising the effect on the surrounding environment and people. Minimising the consumption of material and energy. Minimising environmental pollution. Ensure the proper reclamation of disposal sites, and their after uses.</p>	<p>Four main objectives to achieve sustainable development are:</p> <ul style="list-style-type: none"> • Protecting the environment • Using resources efficiently • Controlling pollution • Increasing public awareness and involvement. 	<p>Policies should consider safeguarding areas for any potential waste allocations.</p>	<p>The SA Framework reflects the objectives within the Waste Local Plan.</p>
<p>Derby and Derbyshire Minerals Local Plan (November 2002)</p>			
<p>Derbyshire County Council and Derby City Council</p>			
<p>http://www.derbyshire.gov.uk/environment/planning/planning_policy/minerals_waste_development_framework/default.asp</p>			

Description	Targets	Implication for plan	Implication for SA
This Plan sets out detailed policies and proposals for mineral working in Derbyshire (outside the Peak National Park). Its aim is to provide for the future supply of minerals, whilst ensuring that the environment is satisfactorily protected. The plan indicates those areas where provision will be made for mineral working and areas where working will be restricted. It sets out the detailed criteria which will be applied to applications for mineral working, and the requirements for restoration and aftercare.	Provides the basis for the Mineral Planning Authority to make decisions on planning applications. It also provides the minerals industry, other public bodies and interest groups, and the public at large with a clear statement of the future scale and pattern of mineral working in the county.	Consideration of the plan should be given through the planning system.	Consideration is given to the plan.
Derbyshire Local Transport Plan Three 2011-2026 (adopted 2011)			
Derbyshire County Council			
http://www.derbyshire.gov.uk/transport_roads/transport_plans/ltp3/default.asp			
In April 2011, we published our new Local Transport Plan. It sets out a transport vision, goals, challenges to be tackled and a strategy covering the period to 2026. The vision aims to achieve a transport system that is both fair and efficient, promotes healthier lifestyles, safer	The five transport goals are: Supporting a resilient local economy.	Policies should complement the objectives and targets which the LTP is aiming to achieve through its strategic role across the County of	The SA Framework reflects the objectives within the Derbyshire Local Transport Plan.

Description	Targets	Implication for plan	Implication for SA
communities, safeguards and enhances the natural environment and provides better access to jobs and services. Whilst also improving choice and accessibility of transport and integrating economic, social and environmental needs.	<ol style="list-style-type: none"> 1. Tackling climate change. 2. Contributing to better safety, security and health. 3. Promoting equality of opportunity. 4. Improving quality of life and promoting a healthy natural environment. 	Derbyshire.

Natural Capital Baseline Assessment 2015			
Lowland Derbyshire & Nottinghamshire LNP			
http://ldnlnp.org/lnp-documents/			
<p>In 2015 the Lowland Derbyshire & Nottinghamshire LNP undertook a baseline assessment of all measurable components of Natural Capital within its area, in order to provide an evidence-base of the state of the environment.</p> <p>It was based on the approach taken by the UK Natural Capital Committee in subdividing the inland environment into eight major 'Asset' types (Freshwater, Atmosphere, Land, Soils, Sub-soils, Minerals, Species and Ecological Communities). Each type of Asset contains numerous individual 'Components'.</p>		<p>The Lowland Derbyshire and Nottinghamshire LNP is now keen to encourage local strategic planners to identify and enhance a broader range of natural capital components within their Local Plans. There was, initially, some raised expectation that the LNP might be willing to prepare and supply all these datasets to individual local authorities. Given their number and the very limited resources available</p>	<p>Baseline assessment would have been useful at the scoping stage.</p>

Description	Targets	Implication for plan	Implication for SA
		to the LNP, however, this may be something it can only aspire to at the present time.	
A Breath of Fresh Air for Nottinghamshire - Nottinghamshire Air Quality Strategy (2008)			
The Nottinghamshire Environmental Protection Working Group			
http://cms.nottinghamshire.gov.uk/home/traffic_and_travel/strategy-policy/airquality.htm			
This document aims to help local authorities and partner organisations manage and improve ambient air quality and to protect the health and wellbeing of the public. Objectives: Minimise air pollution and the impact of global warming and climate change. Encourage sustainable development in Nottinghamshire to protect the health and wellbeing of the population. To work with businesses, stakeholders and the residents of Nottinghamshire to encourage sustainable improvements in air quality.	No set targets	Policies should take into account the requirements by taking a criteria based approach ensuring that new developments do not have an adverse impact on air quality.	The SA Framework includes objectives relating to improving air quality.

Sustainable Locations for Growth Study (2010)			
Nottingham Growth Point Partnership			
http://www.rushcliffe.gov.uk/media/corestrategy/documents/evidenceddocuments/ED07%20Greater%20Nottingham%20Sustainable%20Locations%20for%20Growth.pdf			
The report provides the local planning authorities with a technical evidence base to consider future options for housing allocations in the areas that lie outside the Nottingham Principal Urban Area (PUA). The study takes into account a variety of factors including environmental, economic, infrastructure, transport and landscape. The report sets out the results for each of the 34 assessment areas, and provides a brief overview of the potential growth, and of the constraints to growth for each area.

Description	Targets	Implication for plan	Implication for SA
<p>This study provides strategic level advice on water infrastructure and environmental capacity and should be included as part of evidence base for the Councils' Local Development Frameworks. The study identifies that the water resource situation in the East Midlands is significantly constrained and reinforces the importance of managing the demand for water. A planned programme of measures to improve water supply means that growth should not be constrained. It suggests that consumption could be reduced both by Councils having policies that support the water company's efficiency measures and by building new housing to water consumption standards of the Code for Sustainable Homes Level 3/4. New housing development should occur in the lowest flood risk zones (the study does not take into account non-residential development); in all cases, development options should favour sites in Flood Zone 1. In addition, the effect of climate change should also be taken into consideration, which is likely to increase the extent of the flood zones. Surface water flooding should also be a material planning consideration. New developments should apply</p>	<p>The study recommends that new households should achieve at least Level 3/4 of the Code for Sustainable Homes in order to reduce demand. Development options should favour sites in Flood Zone 1</p>		

Description	Targets	Implication for plan	Implication for SA
sustainable drainage techniques to control flood risk, whilst also providing benefit in terms of water quality, amenity value and green infrastructure targets. The need for a further Detailed Study is identified which should examine wastewater treatment and/or river / catchment water quality modelling in more detail.

<p>To tackle disadvantage by reviving the most deprived neighbourhoods, reducing social exclusion, and supporting society's most vulnerable groups.</p> <p>To create sustainable communities by delivery of equality of opportunity, and of inclusive high quality services.</p> <p>To recognise that different people and groups of people have different needs, and to effectively engage with all customers of the planning service.</p> <p>To encourage Local Authorities to understand the make up of the communities they serve, and to monitor the effectiveness of their policies.</p>		process.	
National Planning Policy Framework (March 2012)			
Department for Communities and Local Government			
https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/6077/2116950.pdf			

Description	Targets	Implication for plan	Implication for Sustainability Appraisal
<p>The National Planning Policy Framework sets out the Government's planning policies for England and how these are expected to be applied. It sets out the Government's requirements for the planning system only to the extent that it is relevant, proportionate and necessary to do so. It provides a framework within which local people and their accountable councils can produce their own distinctive local and neighbourhood plans, which reflect the needs and priorities of their communities. Planning law requires that applications for planning permission must be determined in accordance with the development plan, unless material considerations indicate otherwise. The National Planning Policy Framework must be taken into account in the preparation of local and neighbourhood plans, and is a material consideration in planning decisions. Planning policies and decisions must reflect and where appropriate promote relevant EU obligations and statutory requirements. This Framework does not contain specific policies for nationally significant infrastructure projects for which particular considerations apply. These are determined in accordance with the decision-making framework set out in the Planning Act 2008 and relevant national policy statements for major infrastructure, as well as any other matters that are considered both important and relevant (which may include the National Planning Policy Framework). National policy statements form part of the</p>	<p>The document includes the following key areas: Achieving sustainable development:- 1. Building a strong, competitive economy 2. Making the Connections- Final Report on Transport and Social Exclusion (Social Exclusion Unit, February 2003)			
Social Exclusion Task Force			

<http://assets.dft.gov.uk/statistics/series/accessibility/making-the-connections.pdf>

This report examines the link between social exclusion, transport and the location of services.

Objectives:

- Land-use planning and accessibility planning (as part of LTPs) to ensure that services are accessible to residents.
- Improve accessibility to jobs, education and learning, healthcare and healthy affordable food.
- Reduce social exclusion by improving transport services particularly for people living in areas of deprivation.
- Make streets safer by reducing crime and the fear of crime in and around public transport, reducing road casualties, and by taking into account walking and cycling environments.

No set targets

Regional

East Midlands Region Landscape Character Assessment

Natural England

http://www.naturalengland.org.uk/regions/east_midlands/ourwork/characterassessment.aspx

The East Midlands Region Landscape Character Assessment (EMRLCA) aims to increase understanding of the region's varied landscape, by identifying distinctive, rare or special characteristics. It presents objective, non-technical descriptions of each of the 31 regional landscape character types. It also reviews the forces currently acting to change the landscape; the implications of these changes and provides guidance to counter adverse impacts and promote positive change.

No set targets

The plan should ensure that it has due regard to the landscape character assessments for the area.

The SA Framework includes an objective to protect and enhance the environment and Landscape.

Quality of Employment Land Study (Final, Roger Tym and Partners, July 2002)

Roger Tym and Partners

The report assesses the quantity and quality of employment land supply in the East Midlands to see how far it meets market

No set targets

Policies should be included to

The SA Framework

<p>demand and strategic policy objectives. The focus is on sites over 5 hectares, or with a floorspace capacity greater than 20,000 sq m, and on the sub-regional level.</p> <p>Objectives:</p> <ul style="list-style-type: none"> - Determine how much employment land the market will demand over the next 10-15 years? - Determine what kinds of sites are and will be in demand, in terms of location, accessibility, environmental features and other characteristics. - The regeneration of areas in need. - Renewal of the economy through growth of high-value, high-growth, high-knowledge economic activities. - Encouragement of inward investment as a major contributor to renewal. 		<p>accommodate economic growth.</p>	<p>includes objectives and proposals to promote the economy.</p>

<p>This document is designed to support planning policy development throughout the East Midlands. It contains examples</p>	<p>No set targets</p>	<p>Policies should be included to ensure</p>	<p>The SA Framework</p>

<p>of good practice from across the region and signposts to helpful tools and guidance. The aim is to ensure the delivery of sustainable design and construction in the East Midlands.</p> <p>Objectives:</p> <ul style="list-style-type: none"> - A design led approach, taking account of local natural and historic character. - Design and construction that minimises resource use, and lessens the negative impact on the environment and climate change. - Architectural design that is functional, but respects its local setting. - Housing that meets the needs of the people, at increased densities. - Access by sustainable modes of transport. - Design that reduces crime, improves safety and provides a quality public space. - Design that protects and where possible provides for increases in biodiversity. 		<p>that sustainable communities initiatives objectives are met.</p>	<p>includes objectives to ensure sustainable communities.</p>
Identifying the Sub-Regional Housing Markets of the East Midlands (DTZ report, April 2005)			
East Midlands Regional Assembly			
http://webarchive.nationalarchives.gov.uk/20100528142817/http://www.emra.gov.uk/files/identifying-housing-market-			

apr05.pdf

This study set out to map the pattern of sub-regional housing markets across the East Midlands.

Objectives:

- To identify the boundaries of sub-regional housing markets in the East Midlands region.
- To recommend which local authorities need to work together in the future to undertake Housing Market Assessments within the sub-regional context.

No set targets

Policies contained within ** THE PLAN ** need to ensure that that the recommendations from the Sub-Regional Housing Markets Assessments are considered.

SA Frameworks objectives support those of the Sub-Regional Housing Markets Assessments.

River Trent Fluvial Strategy (Final, Environment Agency, March 2005)

Environment Agency

<http://www.nottinghaminsight.org.uk/insight/handler/downloadHandler.ashx?node=65681>

The Fluvial Trent Strategy sets out to identify approaches to sustainably manage flood risk along the Trent corridor over the next 50 years. The study considers flood risk from the River Trent between the head of main river at Stoke-on-Trent, to the tidal limit at Cromwell Weir at Newark (approximately 200km). It

No set targets

Policies will need to address flood risk

The SA Framework includes an objective to minimise risk of

<p>reviews the condition, performance and level of protection provided by the existing flood defences, and identifies existing and possible future flooding problem areas. An outcome from the study is the production and maintenance of floodmaps for use by planning authorities implementing the requirements of PPG25.</p> <p>Objectives:</p> <p>Reduce flood risk in a sustainable and cost effective manner.</p> <p>Reduce damage to property and the economy associated with flooding.</p> <p>Maintain and improve water quality, the environment, landscape quality, biodiversity and fisheries.</p> <p>Conserve features of archaeological and historic interest.</p> <p>Protect existing uses and future needs and demands for informal recreation.</p>			flooding
Nottinghamshire			
Nottinghamshire Heathland Strategy (2003)			

Nottinghamshire Heathland Forum

<http://www.nottinghaminsight.org.uk/insight/handler/downloadHandler.ashx?node=65688>

This strategy, though now somewhat out of date, is the only such strategy that exists in Nottinghamshire and is still relevant. The strategy aims to promote the conservation, management and enhancement of all Nottinghamshire heathlands, to encourage the creation of new heathlands where appropriate, and to raise public awareness of the status and importance of heathlands.

Objectives:

To make recommendations to local authorities to enable them to take proper account of existing and potential heathlands in the planning process.

To give guidance on heathland management to all heathland owners and managers.

To establish a framework for the conservation and promotion of heathland in the County through the context of the Heathlands Forum.

To bring 80% (an additional 25ha approx.) of the County's heathland into appropriate management by the year 2003.

To increase the area of heathland in Nottinghamshire by 5% (approx. 15ha) by the year 2003.

To disseminate information on heathlands to the general public,

To bring 80% (an additional 25ha approx.) of the County's heathland into appropriate management by the year 2003.
To increase the area of heathland in Nottinghamshire by 5% (approx. 15ha) by the year 2003.

Policies should ensure that adequate green space is protected and enhanced and that recreational facilities meet the needs of the community.

The SA Framework contains objectives to preserve and enhance green space, ensuring accessibility for all to facilities and promotes social inclusion and health.

<p>owners and managers of heathland sites and to other parties.</p> <p>To annually review the effectiveness of these measures through an established monitoring procedure.</p> <p>To take account of developments elsewhere in the UK.</p>			
Nottinghamshire and Erewash Older Peoples Housing Needs Study			
Nottinghamshire and Erewash Councils			
<p>A Strategic Approach to Older Persons' Accommodation for Nottinghamshire and Erewash This is a study of the housing needs of older people. It was carried out across Nottinghamshire Housing Market Areas (HMAs) which include Erewash</p> <p>It included: -</p> <ul style="list-style-type: none"> - Postal and online surveys with 175 Erewash residents aged 50 plus - A focus group with 25 members of the Citizens Panel in Ilkeston. - Literature review of existing work - Collection and analysis of existing data <p>The study outlines the need and demand for types and tenures of homes, and issues to be addressed to best meet the range of housing needs of older people.</p>	No set targets	<p>Outlines the need and demand for types and tenures of homes, and issues to be addressed to best meet the range of housing needs of older people.</p>	<p>Sustainability Appraisal housing objective reflects the theme of the document as appropriate.</p>

Draft Guide to Planning and Biodiversity for Nottinghamshire and Nottingham (Consultation draft, October 2006)

Nottinghamshire County Council and Nottingham City Council

This guide sets out general principles and provides guidance for local authorities in Nottinghamshire and Nottingham relating to biodiversity to assist in making informed planning decisions. It helps to implement the UK Biodiversity Action Plan at a local level.

Objectives:

Emphasises the requirement to incorporate biodiversity issues into planning policy.

To protect and enhance biodiversity and habitats.

Maximise opportunities to incorporate features beneficial to wildlife in new development and the implementation of management plans by the developer that continue for at least 5 years after the development is complete.

To ensure that ecological appraisals are carried out before

No set targets

Policies will need to address biodiversity issues in the area.

The SA Framework includes objectives relating to Biodiversity, seeking to increase biodiversity levels.

development work commences.			
Social Need in Nottinghamshire 2004 (Nottinghamshire County Council and Nottingham City Council)			
Nottinghamshire County Council and Nottingham City Council			
Social Need in Nottinghamshire 2004 has been prepared in order to assess the distribution of social need across the geographic county of Nottinghamshire. The Study should be seen as complementary to the Government's Indices of Deprivation, providing a more local perspective.	No set targets	The ** THE PLAN ** should consider the social needs of the residents in the area.	The SA Framework should reflect the objectives within this document.
Nottinghamshire Local Transport Plan 2011-2026			
Nottinghamshire County Council			
http://www3.nottinghamshire.gov.uk/EasySiteWeb/GatewayLink.aspx?allId=159765			
The Nottinghamshire Local Transport Plan Strategy forms the long term transport strategy for Nottinghamshire County Council's administrative area (excluding Nottingham City) up to 2026. In common with other LTPs it has been developed with a view to achieving economic, environmental and health benefits	No set targets	Policies should support the objectives of this strategy.	SA objectives reflects priorities of the document as appropriate

to local citizens and businesses. Transport's role in supporting the economy and enabling enterprise, reducing carbon emissions from transport, maintaining our current transport assets and providing and enhancing an integrated transport system are core themes of this strategy.

Climate Change Framework for Action in Nottinghamshire (Final, Nottinghamshire County Council 2005)

Nottinghamshire County Council

<http://cms.nottinghamshire.gov.uk/climate-actionplan.pdf>

The framework sets out the actions required to minimise the potential threats posed by Climate Change.

Objectives:

Reduction in energy use.

Improved energy efficiency.

Increased use of renewable energy.

Become an increasingly low carbon economy.

Carbon dioxide emissions: 20% reduction from 1997 baseline by 2010, 40% reduction from 1997 baseline by 2030, 60% reduction from 1997 baseline by 2050, 80% reduction from 1997 baseline by

Policies should seek to contribute towards reduction in energy usage and support renewable energy.

The SA Framework includes an Energy objective which seeks to minimise energy usage and develop the renewable energy resource in the area

Adaptation to the inevitable changes in the climate and minimisation of the risks.	2070, 2100 - Carbon neutral.		
A Breath of Fresh Air for Nottinghamshire - Nottinghamshire Air Quality Strategy (2008)			
The Nottinghamshire Environmental Protection Working Group			
http://www.nottinghamcity.gov.uk/CHttpHandler.ashx?id=1690&p=0			
<p>This document aims to help local authorities and partner organisations manage and improve ambient air quality and to protect the health and wellbeing of the public.</p> <p>Objectives:</p> <p>Minimise air pollution and the impact of global warming and climate change.</p> <p>Encourage sustainable development in Nottinghamshire to protect the health and wellbeing of the population.</p> <p>To work with businesses, stakeholders and the residents of Nottinghamshire to encourage sustainable improvements in air quality.</p>	No set targets	Policies should take into account the requirements by taking a criteria based approach ensuring that new developments do not have an adverse impact on air quality.	The SA Framework includes objectives relating to improving air quality.

Nottinghamshire Sustainable Energy Policy Framework (2009)

Nottinghamshire County Council

<http://cms.nottinghamshire.gov.uk/home/environment/greenissues/sustainableenergypolicyframework.htm>

The Policy Framework aims to inform local development planning by providing evidence for the case for higher energy performance standards in new development across the county.

Advisory targets for phased proportion of low/zero carbon contribution in new domestic/non domestic development in order to support policy development in this area.

Policies should seek to contribute towards carbon reduction in new development

The SA Framework includes an Energy objective which seeks to minimise energy usage and develop the areas renewable energy resource

Local Biodiversity Action Plan for Nottinghamshire (1998, Nottinghamshire Biodiversity Action Group)

Nottinghamshire Biodiversity Action Group

<http://www.nottsbag.org.uk/index.htm>

<p>The Action Plan seeks to conserve, protect and enhance wildlife and their habitats. It recognises and provides guidance for those that are unique to Nottinghamshire. The aims of the plan are:</p> <ol style="list-style-type: none"> 1. To conserve and where appropriate enhance Nottinghamshire's unique variety of wild species and natural habitats. 2. To increase public awareness of, and involvement in conserving biodiversity. 3. To contribute to biodiversity conservation on a national, European and global scale. 	<p>Targets are set for a range of habitats and species in their respective action plan:</p> <p>Habitat Action Plans</p> <ul style="list-style-type: none"> - Eutrophic and Mesotrophic Standing Waters (PDF Document - 48k) - Lowland Calcareous Grassland (PDF Document - 48k) - Lowland Dry Acid Grassland (PDF Document - 48k) - Lowland heathland (PDF Document - 48k) - Lowland Wet Grassland (PDF 	<p>Policies should assist in the conservation and enhancement of biodiversity within the area.</p>	<p>The SA Framework takes account of these needs.</p>
<p>Objectives:</p>			
<p>Through planning control, allow no further loss of habitats and seek opportunities to create new areas through approved development.</p>			
<p>Through planning control, ensure that the potential affects on wildlife of changes of land use are properly assessed, and adverse effects prevented.</p>			
<p>Implement appropriate protection measures such as the designation of Local Nature Reserves.</p>

Nottingham and Nottinghamshire Core Waste Strategy
Nottinghamshire County Council and Nottingham City Council

<http://cms.nottinghamshire.gov.uk/wastecorestrategy.htm>

The Waste Core Strategy will set out our overall approach to future waste management in Nottinghamshire and Nottingham. Key issues will include estimates of how much waste capacity needs to be provided to meet expected demand over the next 20 years, what types of sites are suitable and where in broad terms should new or extended waste management sites be located.

No set targets

Policies will need to address waste management

SA reflects the identified objectives

Nottinghamshire and Nottingham Waste Local Plan (Adopted, Nottinghamshire County/Nottingham City Council, January 2002)

Nottinghamshire County Council and Nottingham City Council

<http://www.nottinghamshire.gov.uk/thecouncil/democracy/planning/local-development-framework/wastedevelopmentplandocuments/wastelocalplan/>

The plan sets out the broad land use framework for future waste management in Nottinghamshire and covers all forms of waste including household, commercial, industrial and construction wastes.
The plan identifies potential future sites for new facilities such as waste transfer, recycling, composting, energy recovery and landfill. It also sets out the detailed environmental and other criteria against which all applications for waste management will

No set targets

The SA Framework reflects the objectives within the Waste Local Plan.

be judged.

Objectives:

Protect the environment.

Use resources efficiently.

Control pollution.

Increase public awareness and involvement.

Reduce the dependency on disposal as a waste management option.

Increase the amount of waste that is recycled, incinerated and composted.

Protect the environment by directing harmful development away from sensitive areas, and minimising the effect on the surrounding environment and people.

Minimising the consumption of material and energy.

Minimising environmental pollution.

Ensure the proper reclamation of disposal sites, and their after uses.			
Ashfield DC, Broxtowe BC, Gedling BC, Mansfield DC, Newark & Sherwood DC, Nottingham City, Rushcliffe BC			
http://www.nottinghamcity.gov.uk/CHttpHandler.ashx?id=3871&p=0			
The focus of this study is to identify accommodation and support needs for Gypsies and Travellers at a local and county level. It sets out the number of new pitches required in each Local Authority area.	New pitch requirement for Broxtowe to 2011 = 2 (undelivered)	** THE PLAN ** should ensure that Gypsy and Traveller accommodation needs are considered.	The SA Framework takes account of these needs.
Greater Nottingham			
Greater Nottingham Aligned Core Strategies Habitats Regulations Appraisal Screening Record (Feb 2010)			
Nottingham Growth Point Partnership			
http://www.nottinghamcity.gov.uk/CHttpHandler.ashx?id=22470&p=0			

<p>The purposes of undertaking a Habitats Regulations Appraisal Screening is to assess if new development will impact upon European sites (includes Ramsar - wetlands, SPA - birds, SAC - habitats, and EOMS - marine sites). This study found that with three exceptions, the level of growth proposed by the Aligned Core Strategy by 2026 would not be likely to have a significant effect on any European site, alone or in combination with other plans or projects. The study identifies potentially significant effects on the prospective Sherwood Forest SPA. It recommends a precautionary approach should be adopted and Policy 2(1)(e) of the Aligned Core Strategy should preclude urban extensions north of the B6386 north of Calverton and, at Ravenshead, west of the A60 and north of Ricket Lane.</p>	No set targets	<p>Policies within ** THE PLAN ** should consider the findings of this assessment.</p>	<p>The SA Framework's objectives helps to support the findings of this assessment where appropriate.</p>

Retail Study (Greater Nottingham) 2007			
Nottingham City Council , Nottinghamshire County Council, Broxtowe Borough Council, Gedling Borough Council, Rushcliffe Borough Council			
http://www.nottinghamcity.gov.uk/index.aspx?articleid=702			
The study assesses the need and capacity (quantitative and qualitative) for additional comparison and convenience retail floorspace in Greater Nottingham to 2016 and projected the figures to 2026. The Study advises how best to accommodate any growth, taking into account existing commitments. It also identifies the hierarchy of centres in the Districts and provides information on the vitality and viability of each town centre. It utilises a forecasting model to predict future retailing trends. The report also reviews national trends in retailing and retail development and the implications for the town centres in the study area.	No set targets	The plan should give consideration to the study.	The SA Framework's objectives considers the findings of this assessment.
Nottingham Core Strategic Housing Market Assessment 2006/07			

Ashfield District Council, Broxtowe Borough Council, Erewash District Council, Gedling Borough Council, Nottingham City Council, Rushcliffe Borough Council

<http://www.nottinghamcity.gov.uk/index.aspx?articleid=3059>

This assessment is to help inform decision making by local planning authorities to achieve the Government's mixed and balanced communities agenda, and to provide for housing needs of communities in the Nottingham Core Housing Market Area.

Findings:

Describes household composition, tenure and house prices.

Housing need and affordability.

Household projections and associated economic factors.

Reasons for, and consequences of, imbalances in the housing market.

Why people move and where they move to.

Rural issues, services and affordability.

No set targets

Policies within the Core Strategy should consider the findings of this assessment.

The SA Framework's objectives considers the findings of this assessment.

Greater Nottingham Strategic Flood Risk Assessment - Non-Technical Report

Nottingham City Council

<http://www.nottinghaminsight.org.uk/insight/handler/downloadHandler.ashx?node=65693>

A Strategic Flood Risk Assessment (SFRA) is a planning tool which helps local authorities steer new developments away from high flood risk areas. This is the Non-Technical Report for the Greater Nottingham SFRA and comprises a summary of key findings. A Technical Report is also available.

No set targets

Policies should take into account this report.

The SA Framework includes an objective to minimise risk of flooding

Nottingham City Region Employment Land Study (February 2007)

Ashfield District Council, Broxtowe Borough Council, Erewash District Council, Gedling Borough Council, Nottingham City Council, Nottinghamshire County Council, Rushcliffe Borough Council

<http://www.nottinghamshire.gov.uk/thecouncil/democracy/planning/subregionalandcountyplanning/employmentlandstudy/>

This study provides an assessment of the quantity and quality of employment land in Nottingham City Region (Nottingham City, Broxtowe, Erewash, Gedling and Rushcliffe - plus the Hucknall wards in Ashfield district) and the likely requirements up to 2026. It takes account of the emerging RSS which aims to align employment change with housing land provision and the resulting population change. It also takes account of the major

http://www.nottinghamshire.gov.uk/EasySiteWeb/GatewayLink.aspx?allId=174931			
<p>This report represents the final assessment in the supplementary work (Assessment of Sustainable Urban Extensions) for the Nottingham Core Housing Market's Strategic Housing Land Availability Assessment (SHLAA). It accepts that it is not possible for the amount of new housing required by the RSS to be built on brownfield land and that a proportion will need to be built on greenfield land. It provides the local planning authorities with a technical evidence base to consider future options for housing allocations, and suggests the density of housing that sites could accommodate.</p>	No set targets	<p>** THE PLAN **</p> <p>should give consideration to the study.</p>	<p>The SA Framework's objectives considers the findings of this assessment.</p>

SFRA

Greater Nottingham and Ashfield Outline Water Cycle Study

Nottingham Growth Point Partnership

<http://www.nottinghamcity.gov.uk/CHttpHandler.ashx?id=36680&p=0>

This study provides strategic level advice on water infrastructure and environmental capacity and should be included as part of evidence base for the Councils' Local Development Frameworks.

The study identifies that the water resource situation in the East Midlands is significantly constrained and reinforces the importance of managing the demand for water. A planned programme of measures to improve water supply means that

The study recommends that new households should achieve at least Level 3/4 of the Code for Sustainable Homes in order

Policies should take into account this report.

The SA Framework includes an objective to minimise risk of flooding

growth should not be constrained. It suggests that consumption could be reduced both by Councils having policies that support the water company's efficiency measures and by building new housing to water consumption standards of the Code for Sustainable Homes Level 3/4.

New housing development should occur in the lowest flood risk zones (the study does not take into account non-residential development); in all cases, development options should favour sites in Flood Zone 1. In addition, the effect of climate change should also be taken into consideration, which is likely to increase the extent of the flood zones.

Surface water flooding should also be a material planning consideration. New developments should apply sustainable drainage techniques to control flood risk, whilst also providing benefit in terms of water quality, amenity value and green infrastructure targets.

The need for a further Detailed Study is identified which should examine wastewater treatment and/or river / catchment water quality modelling in more detail.

to reduce demand.
Development options should favour sites in Flood Zone 1

Strategic Distribution Site Assessment Study for the Three Cities Sub-area of the East Midlands (2010)

East Midlands Development Agency

<http://www.nottingham.gov.uk/CHttpHandler.ashx?id=36461&p=0>

<p>This report sets out the results of a major study which investigated the range of potentially suitable sites for large scale rail connected strategic distribution sites in the Three Cities Sub-area comprising Derby, Leicester and Nottingham and their surrounding areas. This was achieved by:</p> <p>Identifying a long list of potential sites.</p> <p>Developing and applying a robust methodology to allow the ranking of sites.</p> <p>Recommending a short list of potential sites.</p> <p>The Study was commissioned by the East Midlands Development agency on behalf of a partnership of local authorities, the Highways Agency and Network Rail. It was undertaken to support and inform regional and local policy to bring forward sites at the most sustainable locations to serve this important business sector.</p>	<p>No set targets</p>	<p>The ** THE PLAN ** should give consideration to the study.</p>	<p>The SA Framework includes an objective seeking to make the most efficient use of existing transport infrastructure and to ensure that all journeys are undertaken by the most sustainable mode available.</p>

Broxtowe Local Plan Saved Policies (2007)			
Broxtowe District			
http://www.broxtowe.gov.uk/index.aspx?articleid=4224			
The Broxtowe Local Plan, adopted in September 2004, is the main reference document for forward planning in the Borough. It shows all the land allocated for development to cover requirements up to 2011. It includes current planning policies against which new development proposals are judged. In 2007 policies in the Local Plan were scrutinised to select	Stated in the Annual Monitoring Report	Saves or replaces relevant policies from the Broxtowe Local Plan 2004	Local framework for the scope of the SA

those which should be "saved" under a legal process required for all local plans to ensure that they are kept up-to-date. The policies that were saved are confirmed in a Saved Policies List.			
Broxtowe Borough Council Contaminated Land Strategy June 2001			
Broxtowe Borough Council			
http://www.broxtowe.gov.uk/CHttpHandler.ashx?id=881&p=0			
<p>This strategy details how Broxtowe Borough Council, in accordance with its duty under the Environmental Protection Act 1990, will inspect the land in its borough for contamination. It details how the Council will take a rational, ordered and efficient approach to this inspection.</p> <p>The Council will use all available information and a risk based approach both in the initial screening process and then again in the detailed inspection of sites to identify 'contaminated land'. An inspection programme will commence following the assessment of appropriate historic information with the Council producing a public register of any land designated as 'contaminated land' as defined in part IIA of the Environmental Protection Act 1990.</p> <p>The process of investigating and remediating such land is intended to ensure that all land in the borough is suitable for use and does not pose unacceptable risks to people, the</p>	No set targets	Objectives should reflect the key priorities and contribute towards achieving them wherever possible. environment, water and property.

Housing Market Needs Assessment

Broxtowe Borough Council

<http://www.broxtowe.gov.uk/index.aspx?articleid=1568>

A housing needs assessment was undertaken by the Council in January 2005. It looked at all types of housing and tenure in the borough including local authority, RSL and private sector housing and the changes that have taken place to household types and sizes in recent years.

No set targets

The issues of rising house prices, the need for affordable housing and the general housing market including patterns of migration into and out of the borough

Rising house prices, the need for affordable housing and the general housing market including patterns of migration- socio-economic factors

Housing Strategy 2010 - 2015

Broxtowe Borough Council

<http://www.broxtowe.gov.uk/CHttpHandler.ashx?id=21350&p=0>

<p>The Broxtowe Borough Council Housing Strategy 2010 - 2015 addresses the housing challenges we face as a borough due to the significant changes to national and regional policy. The strategy is driven by local priorities and sets out how we will continue to work to meet the housing needs of our residents. The strategy highlights our achievements and strengths with progress continuing to be made in key areas such as improving access to services.</p> <p>Agreed in consultation with partners, stakeholders and residents, the identified priorities and key areas, which frame the strategic direction for housing in the borough, remain unchanged.</p> <ol style="list-style-type: none"> 1. Delivering decent homes 2. Providing new and affordable homes 3. Developing safe and inclusive communities 4. Special and supported housing need <p>Supported by a detailed action plan with concise delivery targets, the progress made against the strategic actions of the four themes will be reviewed annually.</p>	<p>detailed action plan with concise delivery targets</p>	<p>Objectives should reflect the strategic actions and contribute towards achieving them wherever possible.</p>	<p>Sustainability Appraisal objectives reflects the themes of the document as appropriate.</p>
<p>Broxtowe Borough Sustainable Community Strategy 2010-2020</p>			
<p>Broxtowe Borough Council</p>			
<p>http://www.broxtowe.gov.uk/index.aspx?articleid=980</p>			

<p>The Sustainable Community Strategy 2010 - 2020 was created by the Broxtowe Partnership following consultation with local people to set out a long term vision for the Borough.</p> <p>The Broxtowe Borough Partnership brings together many different organisations to work together for the good of Broxtowe. Through consultation with residents, businesses, statutory organisations and voluntary and community groups, the Partnership has developed a Sustainable Community Strategy that seeks to reflect the needs and address the issues and concerns that affect the local community.</p> <p>The broad aim of the plan is to enhance the quality of life in Broxtowe.</p>	<p>Key ways in which we will measure success in this area</p>	<p>It was intended that Local Development Frameworks (now local plans), which were formally introduced in the Planning and Compulsory Purchase Act of 2004, should be the spatial expression of those elements of the community strategy relating to land use and development.</p>	<p>The title of the document implies a community framework for SA</p>

Climate Change Plan Taking action to reduce our impact 2009-2012

Broxtowe Borough Council

<http://intranet/CHttpHandler.ashx?id=15631&p=0>

This Climate Change Strategy focuses on the work that Broxtowe Borough Council can do to tackle climate change in its various roles as estate manager, service provider and community leader.

Action Plan

As one of the key areas of the Climate Change Strategy is to promote sustainable development, the planning system is an ideal tool through which we can work to address issues relating to climate change. Our locational policies take into account sustainable issues throughout ** THE PLAN ** in terms of locating new development in areas well served for public transport, existing services and community

Open Spaces Strategy

Broxtowe Borough Council

<http://www.broxtowe.gov.uk/index.aspx?articleid=15975>

	facilities.	
Protect current Green Spaces provision through Local Plan		The main aim of the strategy is to gain a clear understanding of the Borough's existing parks and green spaces, to fully appreciate the current and future needs of local communities and stakeholders, and to provide a strategic framework for the effective provision and care of the green space network.
Identify actual Green Space requirements as part of new developments through Council's planning process	These actions may identify opportunities for redressing green space deficiencies or surpluses, assist with the planning process	
Contribute to the development of the Local Plan to address biodiversity issues.		

Green Infrastructure Strategy 2015 – 2030

Broxtowe Borough Council

Households in living in fuel poverty - the proportion of all households that are living in fuel poverty. A household is said to be in fuel poverty if it needs to spend more than 10% of its income on fuel to maintain a satisfactory heating regime (usually 21 degrees for the main living area, and 18 degrees for other occupied rooms). The “Fuel poverty ratio” is therefore defined as: Fuel poverty ratio = fuel costs (modelled usage x price) ÷ income. (N/A indicates where data is not available).

Violence against a person. Violent crime covers a number of offences where physical or verbal assault has taken place on an individual (this includes threats of violence). Offence types range from harassment, to assault, to grievous bodily harm and murder, but the number of serious offences tend to be relatively small. Sexual Offences are also included in this category. Violent crime includes Domestic Violence which is defined by the Home Office as any violence between current and former partners in an intimate relationship, wherever the violence occurs. The violence may include physical, sexual, emotional and financial abuse. (N/A indicates where data is not available).

Geological sites - area (ha) of Local Geological Sites of Importance (also known as Regionally Important Geological and Geomorphological Sites (RIGS)). NOTE - there are no officially designated geological sites in Nottinghamshire. This data is still at a DRAFT stage and is mapped as potential sites. Criteria for inclusion have yet to be finalised and fieldwork is needed to determine boundaries. Some of the sites currently contained in the data may not eventually be included. (N/A indicates where data is not available).

Accessibility to a GP - the percentage of households that have access to a GP within 15 or 30 minutes by public transport. This is a calculation of the accessibility of GPs measured by the number of domestic addresses within 15 and 30 minutes journey time by public

BROXTOWE BOROUGH COUNCIL

LOCAL PLAN- SITE ALLOCATIONS AND DEVELOPMENT MANAGEMENT POLICIES Sustainability Appraisal Final Draft Report
transport (bus, tram, or rail). Parameters are: Mondays between 8.00 and 10.00a.m., no more than a 800 metre walk either from the origin, or to the destination, and with no more than 500 metres between service/mode interchanges. Occasionally substantial differences may occur between updates; these are caused by small differences in journey times which in turn results in variations in the number of domestic addresses that fall into the two time thresholds. (N/A indicates where data is not available).

Indicators – notes

Appendix 3 – How the requirements of SEA are met in this SA report

Requirements of the SEA Directive (As referred to in Article 5 (1))	Where requirement is met in this SA scoping report
(a) An outline of the contents, main objectives of the plan or programme, and relationship with other relevant plans and programmes	Executive Summary, , Appendix
(b) The relevant aspects of the current state of the environment and the likely evolution thereof without implementation of the plan or programme	, Appendix , Appendix
(c) The environmental characteristics of areas likely to be significantly affected	
(d) Any existing environmental problems which are relevant to the plan or programme including, in particular, those relating to any areas of a particular environmental importance, such as areas designated pursuant to Directives 79/409/EEC and 92/43/EEC	, Appendix
(e) The environmental protection objectives established at international, Community or national level, which are relevant to the plan or programme and the way those objectives and any environmental considerations have been taken into account during its preparation	, Appendix
(f) The key likely significant effects on the environment, including on issues such as biodiversity, population, human health, fauna, flora, soil, water, air, climatic factors, material assets, cultural heritage including architectural and archaeological heritage, landscape and the interrelationship between the above factors. (Footnote: These effects should include secondary, cumulative, synergistic, short, medium and long-term permanent and temporary, positive and negative effects).	, Appendix
(g) The measures envisaged to prevent, reduce and as fully as possible offset any significant adverse effects on the environment of implementing the plan or programme	Included in the Issues and Options stage
(h) An outline of the reasons for selecting the alternatives dealt with, and a description of how the assessment was undertaken including any difficulties (such as technical deficiencies or lack of know-how) encountered in compiling the required information	Included in the Issues and Options stage
(i) A description of measures envisaged concerning monitoring in accordance with Article 10	Included in the Issues and Options stage
(j) A non-technical summary of the information provided under the above headings	Included in the Issues and Options stage

Appendix 4 – Stages in Sustainability Appraisal

This report covers the tasks in Stages B to D1.

Stage A	Setting the context and objectives, establishing the baseline and deciding on the scope	A1	Identifying other relevant policies, plans and programmes, and sustainability objectives Documents how the plan is affected by outside factors and suggests ideas for how any constraints can be addressed.
		A2	Collecting baseline information Provides an evidence base for sustainability issues, effects prediction and monitoring.
		A3	Identifying sustainability issues and problems Helps focus the SA and streamline the subsequent stages, including baseline information analysis.
		A4	Developing the SA framework Provides a means by which the sustainability of the plan can be appraised.
		A5	Consulting on the scope of the SA To consult with statutory bodies with social, environmental, or economic responsibilities to ensure the appraisal covers the key sustainability issues.
Stage B	Developing and refining options and assessing effects	B1	Testing the Local Plan objectives against the SA framework
		B2	Developing the Local Plan options
		B3	Predicting the effects of the Local Plan
		B4	Evaluating the effects of the Local Plan
		B5	Considering ways of mitigating adverse effects and maximising beneficial effects
		B6	Proposing measures to monitor the significant effects of implementing the Local Plan
Stage C	Preparing the SA report	C1	Preparing the SA report
Stage D	Consultation on the local plan and SA report	D1	Public participation on the preferred options of the Local Plan and the SA report
		D2(i)	Appraising significant changes
		D2(ii))	Appraising significant changes resulting from representations
		D3	Making decisions and providing information
Stage E	Monitoring the significant	E1	Finalising aims and methods for monitoring

effects of implementing the local plan.	E2	Responding to adverse effects
---	----	-------------------------------

Appendix 5 – Justification of SA objectives

Sustainability appraisal objectives are not necessarily intended to be achievable, and may be aspirational. However, they should as far as possible be expressed in the form of specific targets which can be measured through the use of indicators. Indicators should be limited to manageable numbers

Appendix - Glossary of Terms and Abbreviations

Affordable Housing: Affordable housing is used to encompass both low-cost market housing and subsidised housing, irrespective of tenure, ownership (whether exclusive or shared) or financial arrangements, that will be available to people who cannot afford to buy or rent housing generally available on the open market.

Authority Monitoring Report (AMR): A report which is produced annually to establish what is happening now and what may happen in the future and compare trends against existing Local Plan policies to determine if changes need to be made.

BMV: *quality of agricultural land* best and most versatile land is defined as Grades 1, 2 and 3a and is the land which is most flexible, productive and efficient in response to inputs and which can best deliver food and non food crops for future generations.

Biodiversity: The range of life forms that constitute the living world, from microscopic organisms to the largest tree or animal, and the habitat and ecosystem in which they live.

Brownfield Land: A general term used to define land which has been previously developed.

Census of Population: A survey of the entire population of the United Kingdom, undertaken on a ten-yearly basis.

Conservation Area: An area designated by Local Planning Authority under Section 69 of the Planning (Listed Buildings and Conservation Areas) Act, 1990, regarded as being an area of special architectural or historic interest, the character or appearance of which is desirable to preserve or enhance.

Core Strategy: Should set out the key elements of the planning framework for the area. It should comprise: a spatial vision and strategic objectives for the area; a spatial strategy; core policies; and a monitoring and implementation framework with clear objectives for achieving delivery.

Countryside: The rural parts of the District lying outside the defined Main Urban Areas and Named Settlements excluding land designated as Green Belt.

Density: The intensity of development in a given area. Usually measured, for housing, in terms of number of dwellings per hectare.

Department for Communities and Local Government (DCLG): The Government Department responsible for planning and local government.

Derby Derbyshire Nottingham Nottinghamshire Local Enterprise Partnership (D2N2 LEP): The Local Enterprise Partnership that covers Greater Nottingham as well as the administrative areas of Derby, Derbyshire and Nottinghamshire.

Development Plan: This includes adopted Local Plans and Neighbourhood Plans, and is defined in section 38 of the Planning and Compulsory Purchase Act 2004.

District Centres: These will usually comprise groups of shops often containing at least one supermarket or superstore, and a range of non-retail services, such as banks, building societies and restaurants, as well as local public facilities such as a library.

Enterprise Zones: An area of high growth potential where simpler planning and discounted business rates can be used to boost the local economy. Within Greater Nottingham, the Boots campus, MediPark, Beeston Business Park and Nottingham Science Park have been designated as an Enterprise Zone.

Green Belt: Green Belt serves five purposes:

- to check the unrestricted sprawl of large built-up areas
- to prevent neighbouring towns merging into one another
- to assist in safeguarding the countryside from encroachment
- to preserve the setting and special character of historic towns
- to assist in urban regeneration, by encouraging the recycling of derelict and other urban land

as set out in the National Planning Policy Framework 27 March 2012.

Green Infrastructure: A network of multi-functional green space, urban and rural, which is capable of delivering a wide range of environmental and quality of life benefits and can include includes parks, open spaces, playing fields, woodlands, wetlands, grasslands, river and canal corridors, allotments and private gardens.

Green Space: A subset of open space, consisting of any vegetated land or structure, water or geological feature within urban areas.

HMA Housing Market Area: Defining the Housing Market Assessment area and establishing Objectively Assessed Need.

Ha/ha (Hectare): An area 10,000 sq. metres or 2.471 acres.

Habitats Regulations Assessment (HRA): Required under the European Directive 92/43/EEC on the 'conservation of natural habitats and wild fauna and flora for plans' that may have an impact of a European nature conservation site, such as a Special Protection Area (see definition below). It is an assessment of the impacts of implementing a plan or policy on a European nature conservation site with the purpose to consider the impacts of a land-use plan against conservation objectives of the site and to ascertain whether it would adversely affect the integrity of the site, including if necessary by an Appropriate Assessment (see definition above). Where significant negative effects are identified, alternative options should be examined to avoid any potential damaging effects.

Knowledge Economy: Classification of a particular individual industry, if 25% of its workforce is qualified to graduate standard.

Listed Buildings: A building or structure of special architectural or historic interest included on a list prepared by the Secretary of State for Culture, Media and Sport under Section 1 of the Planning (Listed Buildings and Conservation Areas) Act, 1990. Consent is normally required for its demolition in whole or part, and for any works of alteration or extension (both internal and external) which would affect its special interest.

Local development document (LDD): A Document that forms part of the Local Plan and can be either a local plan or a supplementary planning document.

Local Development Scheme (LDS): A document setting out the timescales for the production of the local development documents.

Local Nature Reserve (LNR): Established by a Local Authority under the powers of the National Parks and Access to the Countryside Act 1949.

Local Plan: Comprises a Written Statement and a Policies Map. The Written Statement includes the Authority's detailed policies and proposals for the development and use of land together with reasoned justification for these proposals.

Main Urban Areas: For the purposes of this document, 'Beeston', 'Stapleford', 'Attenborough', 'Bramcote', 'Chilwell', 'Toton' and 'Nuthall East & Strelley' wards.

Main Town Centre Uses: Retail development (including warehouse clubs and factory outlet centres); leisure, entertainment facilities the more intensive sport and recreation uses (including cinemas, restaurants, drive-through restaurants, bars and pubs, night-clubs, casinos, health and fitness centres, indoor bowling centres, and bingo halls); offices; and arts, culture and tourism development (including theatres, museums, galleries and concert halls, hotels and conference facilities).

Mature Landscape Areas: Areas identified by the County Council as being of landscape importance on the basis that they represent those areas least affected by intensive arable production, mineral extraction, commercial forestry, housing, industry, roads etc.

Neighbourhood Plan: A plan prepared by a Parish Council or Neighbourhood Forum for a particular neighbourhood area (made under the 1990 Town & Country Planning Act, as amended by the 2011 Localism Act Planning and Compulsory Purchase Act 2004).

NDHA: Non-Designated Heritage Assets.

Designated Heritage Asset: A World Heritage Site, Scheduled Monument, Listed Building, Protected Wreck Site, Registered Park and Garden, Registered Battlefield or Conservation Area designated as such under the relevant legislation.

Setting of a Heritage Asset: The surroundings in which a heritage asset is experienced. Its extent is not fixed and may change as the asset and its surroundings evolve. Elements of a setting may make a positive or negative contribution to the significance of an asset, may affect the ability to appreciate that significance or may be neutral.

Nottingham Express Transit (NET): The light rail system for Greater Nottingham.

Open Space: Any un-built land within the boundary of a village, town or city which provides, or has the potential to provide, environmental, social and/or economic benefits to communities, whether direct or indirect.

PRoW: Public Right of Way.

Planning and Compulsory Purchase Act 2004: Government legislation which sets out the changes to the planning system.

Planning Obligation: A legally enforceable obligation entered into under section 106 of the Town and Country Planning Act 1990 to mitigate the impacts of a development proposal.

Previously Developed Land: Land which has in the past been a developed site (see Brownfield land)

Primary Shopping Frontages: Consist of a high proportion of retail uses which may include food, drinks, clothing and household goods.

Renewable Energy: The term 'renewable energy' covers those resources which occur and recur naturally in the environment. Such resources include heat from the earth or sun, power from the wind and from water and energy from plant material and from the recycling of domestic, industrial or agricultural waste, and from recovering energy from domestic, industrial or agricultural waste.

Rural Area: Those parts of the Borough identified as Green Belt or Countryside.

Safeguarded Land: Land outside of main built up areas of Nottingham and settlements specifically excluded from the Green Belt but safeguarded from development unless a future local plan is adopted that allocates it for development.

Saved Policies: Policies in the current Local Plan which have been safeguarded and then reused in other documents.

SEA Directive: The European Directive 2001/42/EC (commonly referred to as Strategic Environmental Assessment or SEA) was translated into legislation in the UK on the 21st July 2004. It requires that local authorities undertake an 'environmental assessment' of any plans and programmes they prepare that are likely to have a significant effect upon the environment. See Section 1; Strategic Environmental Assessment.

Section 106 agreement (s106): Planning obligations (or "section 106 agreements") are an established and valuable mechanism for securing necessary infrastructure arising from a development proposal. They are commonly used to bring development in line with the objectives of sustainable development as outlined through the relevant local, regional and national planning policies.

Wildlife Site (LWS): Site of local importance for nature conservation or geology identified by the Nottinghamshire Ecological and Geological Data Partnership.

Site of Special Scientific Interest (SSSI): The designation under Section 28 of the Wildlife and Countryside Act, 1981, of an area of land of special interest by reason of its flora, fauna, geological or physiological features.

Social Rented Housing: Rented housing owned and managed by local authorities and registered social landlords, for which guideline target rents are determined through the national rent regime. It may also include rented housing owned or managed by other persons and provided under equivalent rental arrangements to the above, as agreed with the local authority or with the Housing Corporation as a condition of grant.

Statement of Community Involvement (SCI): This document informs of how the Council intends to engage the community on all major planning applications and in the preparation of the new Local Plan.

Strategic Environmental Assessment: See 'SEA Directive'.

Supplementary Planning Document (SPD): Provide supplementary information in respect of the policies in local plans. They do not form part of the Development Plan and are not subject to independent examination.

Sustainability Appraisal (SA): Assesses the social, environmental and economic effects of strategies and policies in a local development document from the outset of preparation.

Sustainable Development: A guiding principle for all activities in their relationship with the environment. One of the most popular definitions is that "sustainable development meets

the needs of the present without compromising the ability of future generations to meet their own needs". (Source: DCLG)

Safeguarded or 'white land': Land outside of Main Urban Areas and Named Settlements specifically excluded from Green Belt but safeguarded from development to the end of the plan period.

Travel Plan: A long-term management strategy for an organisation or site that seeks to deliver sustainable transport objectives through action and is articulated in a document that is regularly reviewed.

Waste Local Plan: Prepared by the County Council acting as the Authority responsible for waste related issues including disposal, treatment, and transfer and recycling within the County.

Worklessness: Worklessness refers to people who are unemployed or economically inactive, and who are in receipt of working age benefits.' (Social Exclusion Unit, 2004).
