Dear Dave,

The site was visited on Monday. It will qualify for Neutral grassland with 15 qualifying species as mapped to the land parcel. However, it is noted that the qualifying interest is rather restricted to an area in the South West corner close to Coventry Lane, with the majority of the site dominated by tall grasses and occasional scrub with few herbs.

Regards

Rob

Rob,

I just wondered whether there's any news on the Bramcote site?

Our head of department, Steffan Saunders, is in ongoing discussions with the county council about the wider potential development site, so it would be helpful to everyone if we could be clear about the situation as soon as reasonably possible.

Thanks.

Dave.

Dear Dave,

Please find updated LWS layers. Loss/gain figures to follow.

Haven't forgotten about the site at Bramcote. Will visit when possible.

Regards

Rob
