For attention of Sue Rodden  
Dear Sue,

**Parish Boundaries Review – Consultation Response**

We formally record our objections to the proposals put forward by the Borough Council that if implemented, would have a seriously detrimental effect on our operations. We have set out our case in a publicity pamphlet that contains a map depicting an alternative boundary arrangement that would overcome our objections. (See enclosed copy)

The map in question is based on the electronic version kindly prepared by your Office at our request subject to a few minor adjustments due to time constraints.

We enclose also for clarity, a narrative description of our revised boundary arrangement to be read in conjunction with the above map.

We look forward to receiving your favourable consideration and in the meantime will be pleased to provide any further information that you may require in this regard.

Yours sincerely

PP  
Lorraine Murphy  
**Parish Clerk**
