

Dear Sue

Having considered the options put forward by Broxtowe Borough Council to Trowell Parish Council, we have the following comments to make.

We support Options 1, 4 and 5 without the need to comment.

But have the following comments to make about Options 2 and 3.

Option 2

We cannot agree to and accept this proposal for the following reasons.

Bilborough Road has always been the Defensible Border between Trowell Parish and Nottingham City. Meaning that it doesn't seem appropriate to move the border into a land mass behind the properties on Bilborough Road, this will make it Indefensible. It also exposes the Green Belt on Trowell Moor to the threat of development. We consulted all of the residents, there was great concern from them about becoming Unparished and Potentially being absorbed into Nottingham City. Which they strongly oppose.

There is also the issue of Community Charge and Precept. The residences on Bilborough Road contribute to the Precept of Trowell Parish Council, the loss of this income will adversely affect not only the Parish Council, but also all of the other residents in the village. To maintain the same Precept, every residence in the village will see their contribution rise if this proposal occurs.

Option 3

This seems to be a sensible proposal which we agree to and accept. As this area of Trowell, in Trowell Park Drive cannot be accessed from Stapleford North. The residents have to pass the current the Polling Station at Salcey Drive to vote in Stapleford Drive. We consulted all of the residents, there was some concern about the slight change in In Community Charge, we explained the difference in a reply, but didn't receive any further communications from them. We are led to believe that properties that share a Boundary with Clayfield's House have had their Community Charge Rating reduced to reflect this issue. As they are still going to be in Broxtowe, we would like to know that this will still occur.

Kind regards

Trowell Parish Council
