

## Tree Preservation Orders (TPO's)

Whilst this is a definitive list of orders, the title and description of the TPO may be shown as it was prior to any future development and not necessarily include the address of properties built after confirmation. Furthermore, some trees might be located on land just outside of the named land, property or street on the address of the order. It is therefore important that you contact the Council prior to undertaking any works. It is a criminal offence to undertake works to a tree that is protected without appropriate consent from the Head of Environment.
